

Saad Abbasi

Full Stack & AI

Skills

Problem Solving:

Strong analytical skills used to debug large codebases and optimize AI workflows.

CS Foundations:

Solid knowledge of data structures, algorithms, and software programming languages.

AI & Engineering:

Proficient in training machine learning models and full-stack troubleshooting.

Collaboration: Strong

communication skills with a proven ability to work productively in teams

Profile

Full Stack & AI Engineer specialized in building responsive web and mobile apps using Next.js and React Native. Experienced in developing backend APIs and training Machine Learning models to solve real-world problems with clean, type-safe code

Education

Abbottabad University of Science & Technology (AUST) | 2022-2026 Bachelor of Computer Science

Work Experience

Nexelix, Havelian, Pakistan | 2025–Jan
2026 Full Stack Web Developer

Built responsive web applications using Next.js, React, and Tailwind CSS.

Developed backend APIs with Node.js and Express using TypeScript and MongoDB.

DevelopersHub Corporation | April 2026–May 2026 AI / ML Engineering Intern

Completed a intensive 6-week internship program demonstrating exceptional performance in AI and Machine Learning engineering.

Contributed to developing smart solutions and technical workflows using deep learning and data analysis.

Freelance / Projects | 2021–Present

Developed full-stack web and React Native mobile applications while deploying ML models.
