Education

Abbottabad University of Science & Technology (Aust) - Abbottabad, Pakistan

Bachelor of Science in Computer Science

Sep. 2022 – July 2026

CGPA: 3.55/4.00

Experience

Full Stack Web Developer

Nexelix - Havelian, Pakistan

- Built responsive web applications using Next.js, React, and Tailwind CSS.
- Developed backend APIs using Node.js, Express, TypeScript, and MongoDB.
- Built full-stack and React Native applications.
- Integrated AI/ML models into software applications.

Aug. 2025 – Dec. 2025

Jun. 2026 – Aug. 2026

AI / ML Engineering Intern

DevelopersHub Corporation

- Worked on Machine Learning, Deep Learning, and Data Analysis projects.
- Applied data preprocessing, model training, and evaluation techniques.
- Contributed to AI/ML solutions and technical workflows.

Apr. 2026 – May 2026

Technical Mentor / Instructor

Digital Dreams Academy & Software House

- Mentored interns in web development and programming.
- Guided students through practical coding projects and technical problem-solving.
- Conducted hands-on sessions and provided code reviews and technical support.

Jan. 2026 – Mar. 2026

Projects

Job Application Tracker | React, React Native, TypeScript, Node.js, Express, MongoDB

- Built and deployed Web + Android applications using a shared Node.js/Express backend and MongoDB.
- Implemented JWT authentication, CRUD operations, search, filtering, and application-status tracking.
- Deployed web, backend, and Android APK using Vercel, Render, and Expo EAS.

Industrial Defect Detection | Python, TensorFlow, EfficientNetB0, FastAPI

- Built a deep learning system to classify 6 industrial surface defect types.
- Applied transfer learning with EfficientNetB0, achieving 97.78% validation accuracy.
- Developed a FastAPI inference API for model deployment.

Customer Churn Intelligence | Python, Scikit-learn, XGBoost, FastAPI

- Built an end-to-end ML system for customer churn prediction.
- Performed preprocessing, feature engineering, model comparison, and hyperparameter tuning.
- Integrated model predictions with FastAPI and explainability techniques.

Technical Skills

Languages

JavaScript, TypeScript, Python, HTML, CSS, SQL

Frameworks

React, Next.js, React Native, Node.js, Express.js, FastAPI, TensorFlow

Libraries

Scikit-learn, XGBoost, Pandas, NumPy, Matplotlib

Developer Tools

Git, GitHub, Docker, Vercel, Render, Expo, VS Code
